

# IT-6 Infrared Thermometer Datasheet

## IT-6 Highlights

IT-6 is an economical and integrated infrared thermometer, provides a single sensor solution for forging, heat treatment, smelting, hot pressing sintering etc.. The series with 5 models can measure target temperatures ranging from -25°C to 2500°C. The unit's onboard electronics are protected by an aluminium alloy housing, allowing the sensor to work in ambient temperature up to 60°C without cooling.

IT-6 thermometer features coaxial laser sighting. The optical resolution is 150:1 and the smallest spot size is 2mm. Laser sighting and high-resolution provides solution for either small targets or long-distance measurements. Standard features include adjustable emissivity which are 1.0, 0.9, 0.8 and 0.7. It is suitable for ferrous metal with bad surface finish and some non-metallic materials.

IT-6 infrared thermometer can be equipped with a compact monitor that configures the functions via the front panel. It also has RS485 communications, through which the thermometer can be connected to a computer in the control room. This enables users to view, configure, focus the thermometer locally or remotely.

Applications: forging, heat treating, smelting, glass melting, wire mills and so on.

## Measurement Specifications:

Temperature Ranges:

IT-6L1	-25-500°C
IT-6L2	-25-1000°C
IT-6H1	300-1200°C
IT-6H2	500-1400°C
IT-6H3	800-2500°C

Detector

IT-6L1, IT-6L2	Thermopile 8-14µm
IT-6H1, IT-6H2	InGaAs 0.7-1.7µm
IT-6H3	Si 0.4-1.1µm

Accuracy

IT-6L1, IT-6L2	±1%(FS)
IT-6H1, IT-6H2, IT-6H3	±0.5%(FS)

Repeatability ±0.5%

Temperature Resoution 0.5°C

Response Time ≤5ms

Emissivity 1.0, 0.9, 0.8, 0.7 adjustable

## Optical Specifications:

Typical Spot Size at Minimum Focus Distance

Models	D:S	Minimum Spot Size
IT-6L1	70:1	4.3mm@300mm
IT-6L2	70:1	4.3mm@300mm
IT-6H1	120:1	3mm@360mm
IT-6H2	220:1	2.7mm@600mm
IT-6H3	220:1	2.7mm@600mm

## Electrical Specifications:

Outputs

Analog	0-20mA, 4-20mA, 0-5V
Digital	RS485
Alarm	No

Adjustable Emissivity setting  
Laser control  
Trigger  
Response time

Power Supply 24VDC ±20% 500mA

## General Specifications:

Environmenta Rating IP65

Ambient Temperature

Without cooling	0-65°C
With air cooling	110°C
With water cooling	165°C

Storage Temperature -20-70°C

Relative Humidity 10-95%, non-condensing

Thermal Shock GB/T2423.1, GB/t2423.2

Anti Disturbance JB/T9233.11-1999

Dimension L:max170mm; Φ45mm

Weight 510g

# IT-6 Infrared Thermometer Datasheet

## Dimension :

## Water-cooled jacket

NOTES: All dimensions are in millimeters.

## Optical Specifications

## Options

Options must be specified at time of order

- Manufacturer's calibration certificate based on Q/DK001-2015

## Accessories

- RS232/485 converter serving for stand-alone or multiple sensors
- Protective Windows according to spectral range
- Cable extensions in different lengths
- Water/Air Cooled Housing for field retrofit as stainless steel or aluminium
- Extra rugged cast metal housing for thermal/mechanical environmental protection
